## SCOPE OF THE JOURNAL

**ROCKS & MINERALS** is for everyone interested in minerals, rocks, fossils, geology, and the earth sciences in general. The journal contains articles about new and old collecting sites, research articles, review articles, and articles about other subjects of general interest. Also included are regular features covering such subjects as collections and displays, educational projects and activities, shows and symposia, and micromounts.

Consideration for publication will be given to articles dealing with any of the above mentioned subjects. Acceptance is determined by the approval of our editors. Manuscripts should be sent to: Managing Editor, *Rocks & Minerals*, 4000 Albemarle Street, N.W., Washington, D.C. 20016.
